2020, remains an enormous challenge to face.

Under the Tourism Act of 2009, the TIEZA maintains its stature as the country's builder of tourism infrastructures to include tourist facilities and amenities of high-impact specifically with cultural/ historical/religious/heritage and eco-tourism values. Through these developments, a deep sense of awareness and pride for our cultural traditions, natural bounties and uniqueness as a race are being shaped and instilled in every Filipino spirit and mind.

Through the establishment of tourism enterprise zones (TEZs) nationwide, private stakeholders are lured to be shared-partners in tourism development. Their investments will indubitably help create jobs for the local communities towards ensuring the country's growth sustainability by generating work opportunities, earning foreign exchange and reducing poverty levels particularly in the countryside. With tourism's ripple-effect, a vast expanse of economic, business and commercial activities are being created contributing substantially to the nation's progress by supporting other related industries like food, transport and travel, communications, information technology, medical/ health, cottage/livelihood, among many others,

Corollary to the national policy agenda of promoting good governance, bureaucratic austerity, poverty alleviation, people empowerment and sustainable economic and environmental development, to name a few, TIEZA's strategic themes focus on the following three (3) major areas of Inclusive Growth, Financial Viability and Operational Excellence.

By efficiently and effectively performing its mandate, the TIEZA hopes to stimulate greater leverage and momentum on the nation's tourism industry by maintaining its stance as the country's prime tourism infrastructure developer.

To aptly orchestrate its organizational planned goals, plans, programs and projects in alignment with the PDP and NTDP, and in consonance with the provisions of the GOCC Governance Act (RA 10149), the TIEZA has drawn up a five-year strategic plan and strategy map based on the Balanced Scorecard Management Framework. This five-year strategic plan covers CYs 2012-2016. However, during the Performance Agreement Negotiation (PAN) with the Governance Commission on Government Owned and Controlled Corporation (GCG) in 2015, the strategies were revisited. As a result, TIEZA has now a revised Strategy Map containing the strategic measures embodied in the PAN.
