GUIDELINES FOR CANCELLATION OF BOARD – APPROVED INFRASTRUCTURE PROJECTS

I. Purpose

To prescribe the criteria for cancellation of tourism infrastructure projects previously approved by the Board of Directors of Tourism Infrastructure and Enterprise Zone Authority (TIEZA).

II. Coverage

These Guidelines shall apply to all tourism infrastructure projects requested by various interested third parties and approved by the TIEZA Board of Directors, which are subject for cancellation.

III. Criteria

Tourism infrastructure projects shall be considered for cancellation based on the following:

1. Project had been granted funding from another source, whether it be from the General Appropriations Act (GAA), National Government Agencies (NGAs), Local Government Units (LGUs), or other Government-Owned and Controlled Corporations (GOCCs).
2. The proponent sent a letter signifying non-interest in the approved project, either by withdrawing the original request and proposing a new project / or proposing the same project but in a different location.
3. Project remained stagnant for two (2) years due to non-submission of the requirements or non-compliance to government procurement procedures after served written notice.

For approved projects funded through Transfer of Funds (TOF), the project may be cancelled based on the following:

1. Project cannot be fully completed by the proponent and a Termination Letter to this effect has been submitted to TIEZA.
2. Fund releases for the project were not fully liquidated and legal action for non-liquidation had been initiated by TIEZA based on the Memorandum of Agreement (MOA).

IV. Funding Commitment

Funds allocated/committed to above-mentioned infrastructure projects and which have been consequently cancelled/terminated through a Board action/resolution shall revert back to the Agency's Accumulated Surplus Account (Unappropriated) and hence, channeled for the completion of approved tourism infrastructure projects.
